emerse
ELECTRONIC MEDICAL RECORD SEARCH ENGINE

<http://project-emerse.org/presentations.html>

Goals

- Describes tools for research
- Discuss free text vs structured data
- Describe use cases for EMERSE
- Introduce capabilities of EMERSE
- Show a live demo of EMERSE

What is EMERSE?

A search engine, kind of like Google, for free text medical record documents
(technically, it's an *information retrieval* system)

Simple to use

emerse
ELECTRONIC MEDICAL RECORD SEARCH ENGINE

<http://project-emerse.org/presentations.html>

What is EMERSE?

A research tool, available at no cost

- requires local implementation
- picking the right tool for your research is important; multiple tools are often needed

Unstructured vs Structured Data

EMERSE is for this...	...not this
<i>Unstructured Data (free text)</i>	<i>Structured Data</i>
Mrs. Jones is a 56 year old female with a history of HTN, hypercholesterolemia, and T2DM who comes to the clinic today with a 3 day h/o dizziness and severe headache on the left side.	WBC: 5.6 Total cholesterol: 182 Weight: 67.4 AST: 30 ALT: 52

80% of EHR data are in unstructured free text

structured data

unstructured data/free text

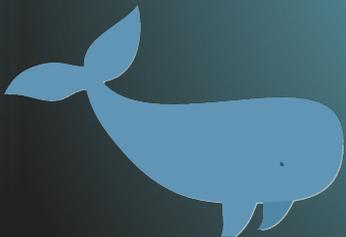

80% of EHR data are in unstructured free text

"potential cases may be missed or wrongly dated when coded data alone are used.." (PMID: 23964710)

"structured data is best used for first pass filtering of EHR data...prior to a more nuanced second pass using unstructured data" (PCMIC: PMC4333685)

"...urinary incontinence, an important patient-centered outcome following prostate cancer treatment, was reported almost exclusively in the free text of EHRs and was rarely coded as an ICD 9 diagnosis code." (PMCID: PMC4899050)

"Claims and structured EHR data give an incomplete picture of burden related to geriatric syndromes. Geriatric syndromes are likely to be missed if unstructured data are not analyzed."
(PMID: 29972595)

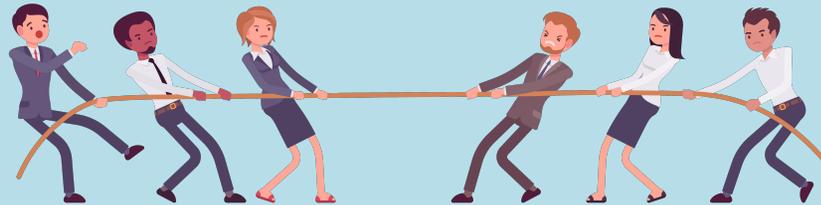

What isn't EMERSE?

It is not: natural language processing (NLP)

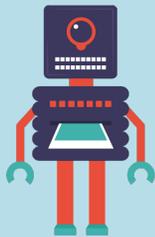

- but full NLP may not always be needed
- and NLP can be hard to use or customize

EMERSE vs NLP

EMERSE: *augmented* intelligence

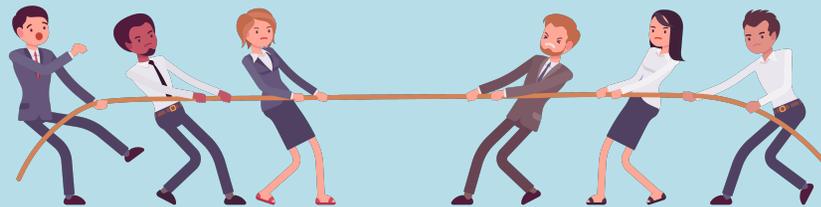

NLP: *artificial* intelligence

emerse
ELECTRONIC MEDICAL RECORD SEARCH ENGINE

<http://project-emerse.org/presentations.html>

EMERSE vs NLP

EMERSE ●

Find cohorts

EMERSE allows you to find cohorts based on things mentioned in the notes

- diseases
- drugs
- symptoms
- anything*

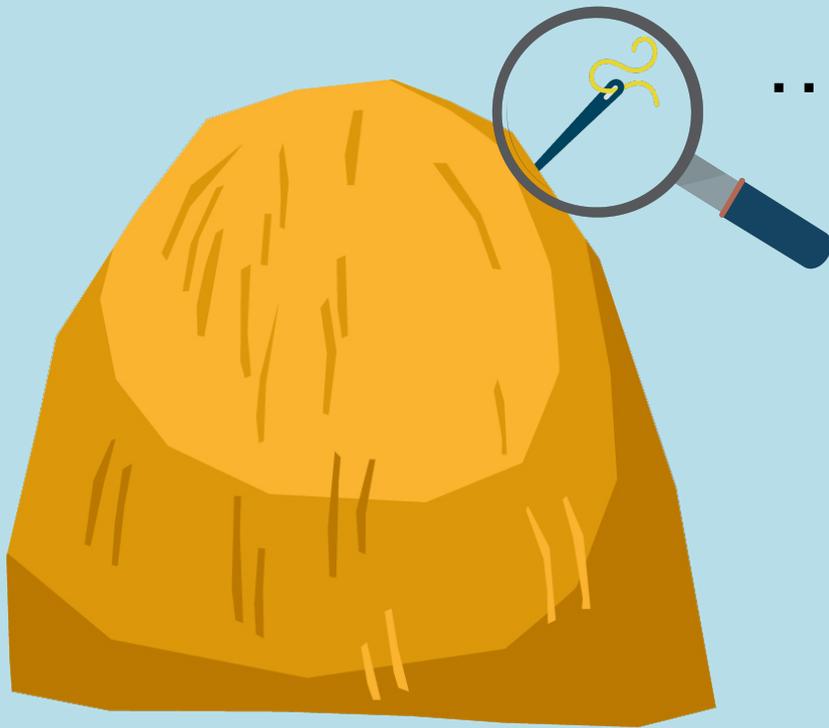

*if it is mentioned

Find cohorts

It's perfect for finding rare things...

...like rare cancers

Find cohorts

It's perfect for finding diagnoses that don't have a specific ICD-10 code... like leiomyosarcoma...

► **ICD-10-CM Diagnosis Code C49.6** 📄 [convert to ICD-9-CM]

Malignant neoplasm of connective and soft tissue of trunk, unspecified

↳ Malignant neoplasm of conn and soft tissue of trunk, unsp; Angiosarcoma, trunk; Cancer of the soft tissue, trunk; **Leiomyosarcoma**, trunk; Liposarcoma, trunk; Malignant fibrous histiocytoma, trunk; Primary angiosarcoma of trunk; Primary **leiomyosarcoma** of trunk; Primary liposarcoma of trunk; Primary malignant fibrous histiocytoma of trunk; Primary malignant neoplasm of soft tissues of trunk; Primary rhabdomyosarcoma of trunk; Primary sarcoma of trunk; Rhabdomyosarcoma, trunk; Sarcoma, trunk; Malignant neoplasm of back NOS

<https://www.icd10data.com/search?s=leiomyosarcoma>

<http://project-emerse.org/presentations.html>

Find cohorts

...or Bainbridge-Ropers Syndrome

ICD-10-CM Code **Q87.0**

Congenital malformation syndromes predominantly affecting facial appearance

BILLABLE

POA Exempt

ICD-10 from 2011 - 2016

...or hundreds of other disorders with no specific code

<https://www.icd10data.com/search?s=leiomyosarcoma>

em**rse**
ELECTRONIC MEDICAL RECORD SEARCH ENGINE

<http://project-emerse.org/presentations.html>

Working with cohorts

find a cohort
from within
EMERSE

EMERSE patient lists
(from 1 to 100,000 patients per list)

import list
from another
system

upload a list
of patients

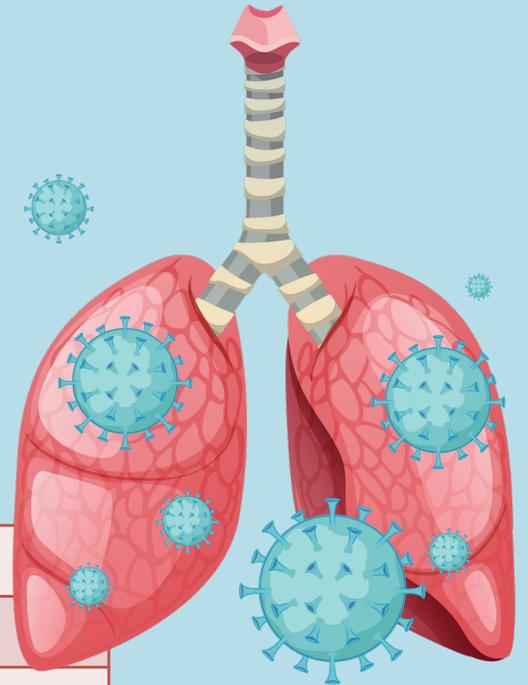

Highlight documents for chart review

Thoracocentesis confirmed the recurrence of **mantle cell lymphoma**. Disease restaging work-up revealed multicompartiment lymphadenopathy in the neck, mediastinal, retrocrural, retroperitoneal and pelvic regions. **Bone marrow** was also involved. The patient was treated with a total of six cycles of rituximab, cyclophosphamide, vincristine, doxorubicin and dexamethasone (**R-HyperCVAD**) completed in January 2007. That treatment led to complete remission that lasted until October 2008, when the disease was found to have recurred in the left pleural space and **retroperitoneum** without **bone marrow** involvement.

Chart review

Research team at Michigan Medicine used EMERSE to identify presenting symptoms for COVID-19, including:

dyspnea	rhinorrhea or congestion	vomiting
wheezing	myalgia or arthralgia	abdominal pain
cough	fatigue or malaise	chest pain or tightness
sputum production	headache	loss of smell or taste
blood in sputum	loss of appetite	altered mental status
sore throat	diarrhea	weakness
fever or chills	nausea	lightheadedness or syncope

Synonyms for "vaping"

EMERSE query expansion

<http://project-emerse.org/presentations.html>

EMERSE query expansion

- Can use “EMERSE Synonyms Collection” or administrators can upload additional datasets (e.g., ICD-10, human phenotype ontology, MeSH terms)

EMERSE Synonyms Collection

- Manually curated over past 14+ years
- Terms/phrases not found in standard vocabularies, taxonomies, ontologies (but found in clinical notes)
- Academic and non-academic licensing available
- > 1.2 million unique rows
- Details are at:

<http://project-emerse.org/synonyms.html>

- To explore a subset, visit:

http://www.davidhanauer.com/EMERSE_synonyms_T_Terms/

<http://project-emerse.org/presentations.html>

EMERSE Synonyms

Category	Example
Acronyms	CXR chest x-ray
Abbreviations	chemotherapy chemo
Professional and consumer terms	emesis puking
Misspellings	diarriaea diahhrea
Trade and generic drug names	Tylenol acetaminophen
Chemotherapy regimens	FOLFOX, folinic acid, fluorouracil, oxaliplatin
Word Stems	sleep, sleeping, sleepy

Category	Example
True synonyms	frigid cold
Phrasing variations	lido w/ epi epi-lidocaine
Malapropisms/ usage errors	beast mass prostrate cancer
Root word variations	adenotonsillectomy tonsilloadenoidectomy
Hyphenations	pseudosarcomatous pseudo-sarcomatous
Idioms	under the knife under the weather
Neologisms	trabecularity (vs trabeculation)

EMERSE Bundles

Saved sets of search terms

Shared among users

Helps standardize searches

Supports reproducibility

- Some teams publish Bundles
in their publication's appendix

(example: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3860174/>)

EMERSE is *fast*

Query to identify all patients with the following	Epic Clarity time (s)	EMERSE time (s)	EMERSE advantage
cavernous hemangioma	14,652	2	7,320x
gray platelet syndrome	14,940	2	7,470x
inferior lingular segment of the left upper lobe	17,784	9	1,980x

...enabling real-time querying

<http://project-emerse.org/presentations.html>

What's in EMERSE?

Free text notes*

- admission notes
- history and physical
- progress notes
- pathology reports
- radiology reports

*depends on local configuration

@ Michigan: 2.6+ million patients
210+ million notes
1995-present

emerse
ELECTRONIC MEDICAL RECORD SEARCH ENGINE

<http://project-emerse.org/presentations.html>

What's not in EMERSE?

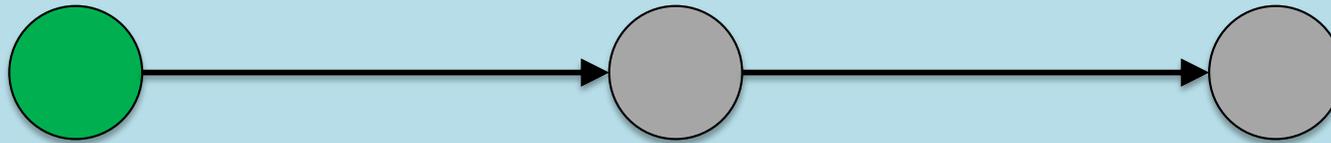

Structured data

- discrete lab values
- vital signs
- billing codes

Other tools exist for structured data
(DataDirect, i2b2, Leaf, etc.)

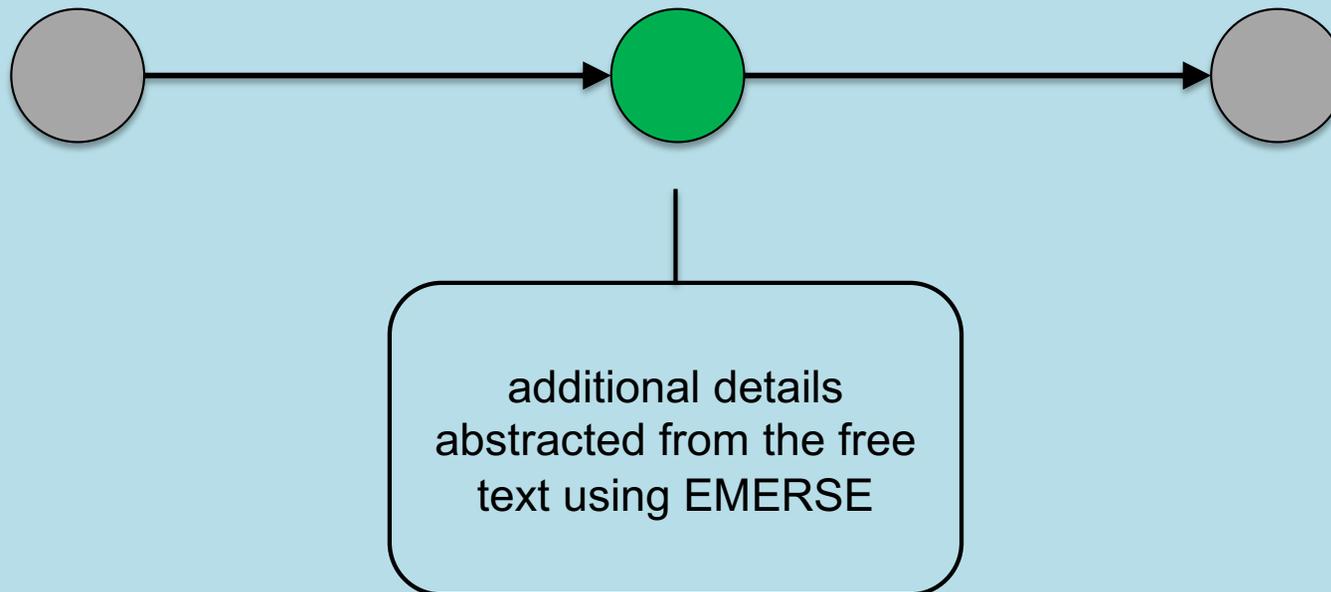

Typical workflow

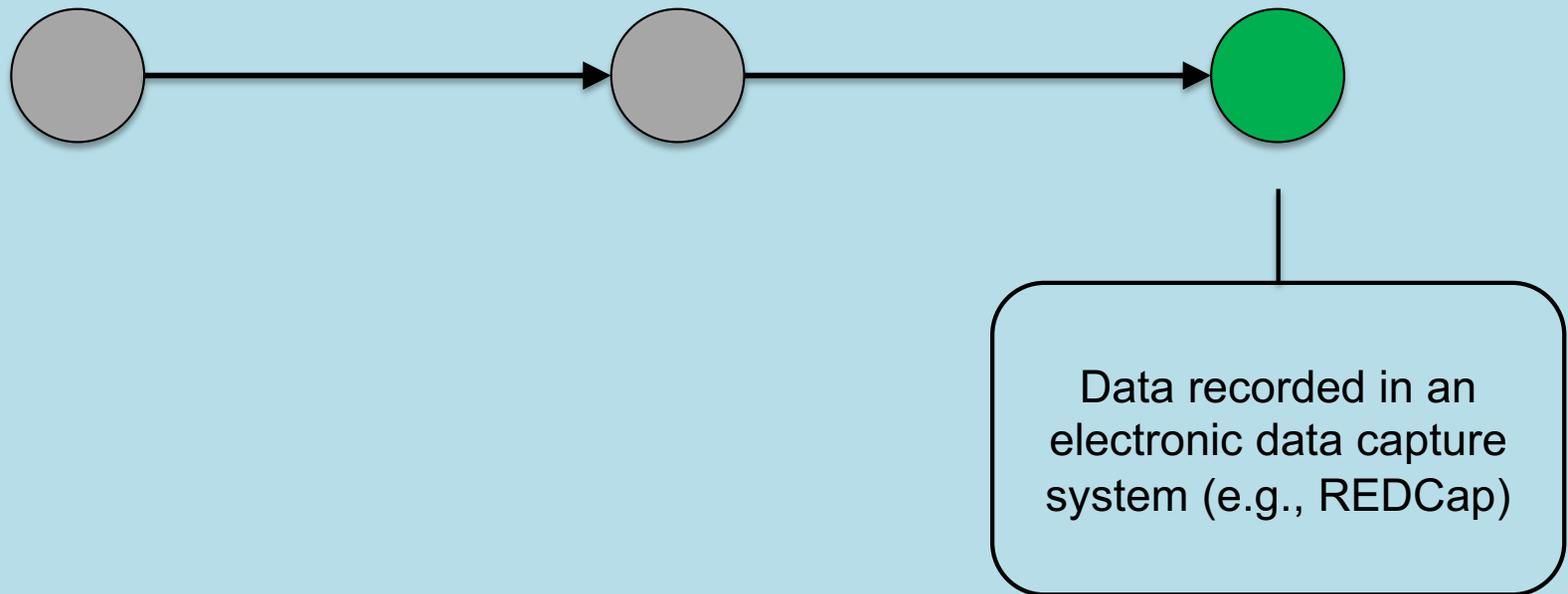

initial cohort identified
with a cohort discovery
tool using structured
data (or via EMERSE
'Find Patients')

Cohort discovery tools:
DataDirect @ Michigan
i2b2, LEAF, others elsewhere

Typical workflow

Typical workflow

Publications using EMERSE

446 papers

81 abstracts

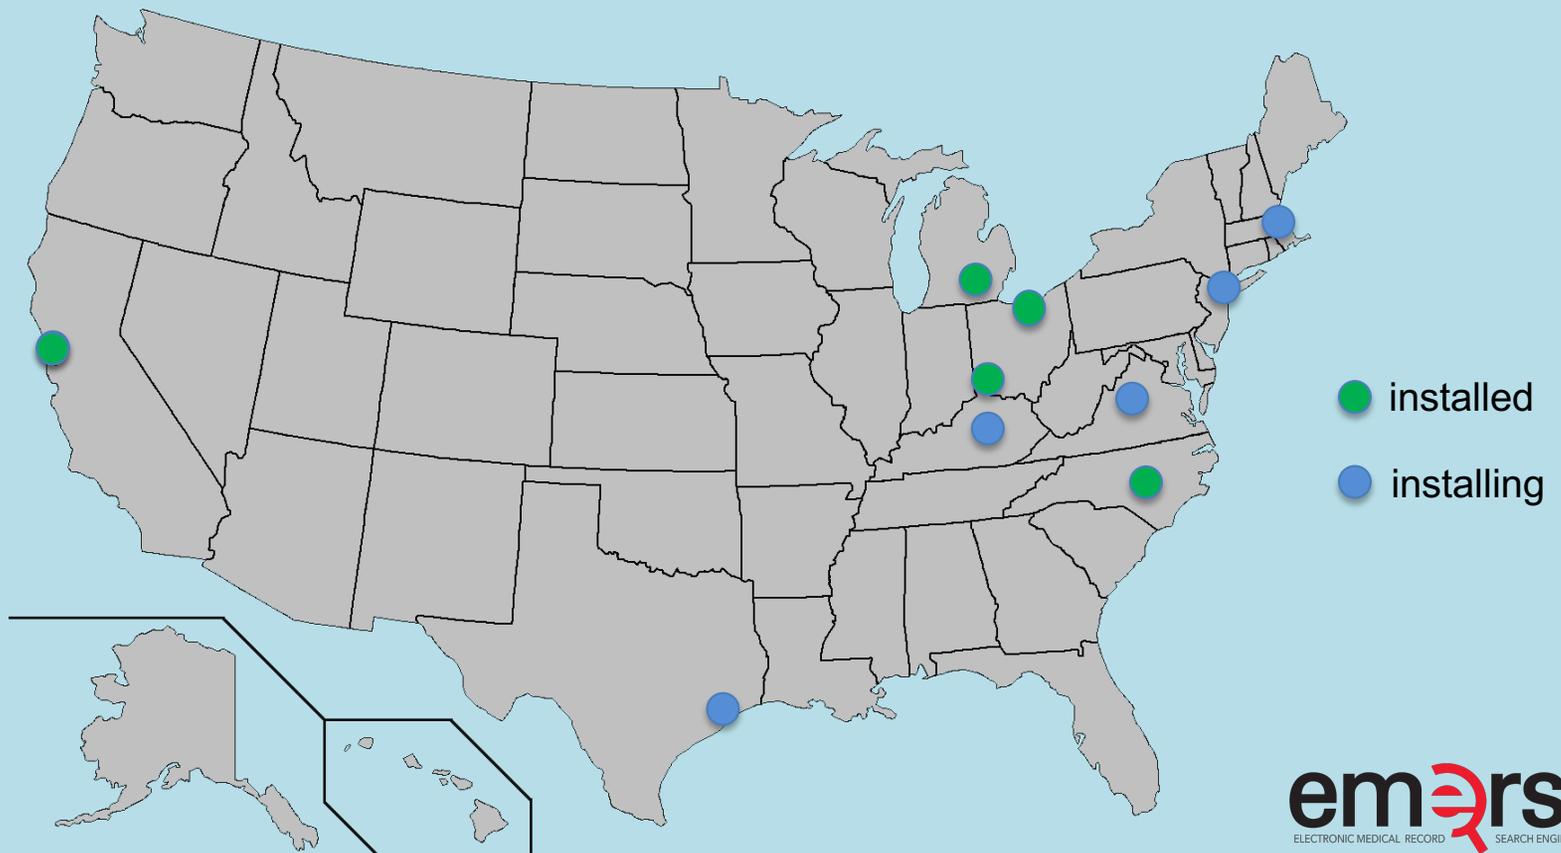

Full list at:

<http://project-emerse.org/publications.html>

Where is EMERSE?

<http://project-emerse.org/presentations.html>

The future...

<http://project-emerse.org/presentations.html>

Who can obtain access?

@ Michigan

Anyone with EHR access, BUT:

- you need a valid reason such as research, operations, quality
- “curiosity” is not a valid reason*
- all usage is tracked

@ elsewhere

Will depend on each site’s local rules

*but we do have a demo site for curious users

Getting EMERSE

local installation required

need support of IT team

<http://project-emerse.org/presentations.html>

Under the Hood

EMERSE application
